

WHSG Art Department

any ancient documents and manuscripts have a highly decorated first letter at the beginning of each page or each paragraph.

Some even have a decorated letter at the end

These letters are called “Illuminated Letters”

On a single sheet of A4 paper, create a highly decorated version of your own name (include two illuminated letters). Use colouring pencils to make the design as attractive as possible. –This design will be stuck onto the first page of your sketchbook at the start of your year 7 Art course.
